

28-29 September, 2009

# 2nd YESA INTERNATIONAL SYMPOSIUM

**“Seismic observations for the deep Earth and the interpretation”**

## *Outline*

The 2nd YESA workshop will be held at Geodynamics Research Center (GRC), Ehime University in 28~29 September, 2009. Contributions at the workshop will consist of oral and posters presentations about studies of subduction zone associated with Earth's mantle dynamics from surface to the core. Nowadays, the Earth's internal dynamics is studied by many research fields from experimental, seismological, and simulation methods. In this workshop, we focus on seismological observations and their interpretations from experimental and/or field views in deep earth. The participants are expected to bring out and discuss various problems in each field of research, and to suggest a new interpretation through this workshop. We look forward to welcome a lot of young researchers including students.

## *Submission*

To join the 2nd YESA workshop, please send your information:

-> author's information (see Application form;

<http://www.sci.ehime-u.ac.jp/~usui/tmp/2ndYESA/2ndYESA.Application.doc>)

-> abstract (see Abstract Submission;

[http://www.sci.ehime-u.ac.jp/~usui/tmp/2ndYESA/2ndYESA.Abstract\\_Submission.doc](http://www.sci.ehime-u.ac.jp/~usui/tmp/2ndYESA/2ndYESA.Abstract_Submission.doc))

to [usui@sci.ehime-u.ac.jp](mailto:usui@sci.ehime-u.ac.jp).

If you find any problem in submission, please contact **[usui@sci.ehime-u.ac.jp](mailto:usui@sci.ehime-u.ac.jp)**.

## *Grant*

The 2nd YESA workshop is supported by Global COE program, Ehime University. Young researchers (Ph. D students, Post Doctoral researchers, and Research Assistant) are eligible to apply for travel grant from the organizer. Please advise us whether or not you require travel grant when providing your submission information form. If you are below Ph. D students (and not the author), Program Committee will evaluate the financial need of the applicant.

### Deadlines

Application	:	20 August
Travel Grant	:	20 August
Abstract	:	14 September
