

Science and Technology of Nano-Polycrystalline Diamond (STNPD-2019)

28 February-2 March 2019

Deadlines for contributed
papers/posters and registration:

15 December 2018

<http://www.grc.ehime-u.ac.jp/archives/4350>

Venue: GRC, Ehime University,
Matsuyama, Japan

Topics and keynotes

- Synthesis of NPD and related materials (**Tetsuo Irifune**, GRC)
- Features and physical properties (**Yanbin Wang**, University of Chicago)
- Applications to ultrahigh pressure generation (**Takehiko Yagi**, University of Tokyo)
- Applications to X-ray spectroscopy under pressure (**Sakura Pascarelli**, ESRF)
- Applications to other high-pressure studies (**Yoshihiko Takano**, NIMS)
- New ideas and various applications (**Yoshio Kono**, GRC)
- Discussion & future perspectives

Registration fee: free of charge

Banquet: 5000 yen (on-site payment at the registration desk, cash only)

Excursion to Uchiko-town: 5000 yen (on-site payment at the registration desk, cash only)
